

Westlock Regional Waste Management Commission located in Westlock County is looking for an energetic hard-working individual who wants to become a member of or proactive team as Assistant Manager. Westlock Regional Waste Operates the Regional Landfill and Recycle center and a partnership with Altrout with an on site full compost facility. We have a board of directors that are forward thinkers and support waste diversion not just for our region but for surrounding regions. We are a Class II MSW waste facility operating under a Alberta Environment Registration.

Westlock Regional Waste Management Commission is a forward-thinking Commission whose **Vision Statement is:** “We are leaders in waste diversification and innovation!”, taking pride in what they have developed and accomplished for such a small service area, about 10,000 population, located in a agricultural area just 45 minutes north of Edmonton Alberta. In the past 5 years they have expanded their recycle program by over 400 %, added a plastic grinding facility, added a Hydrovac Dumping Station and created the partnership for composting.

Successful individual will report directly to the Waste Commission Manager and will assist in the overall day to day operations of waste commission managed facilities. You should have at least 5 years landfill/recycle operations experience, with equipment operations a plus, and 3 years supervision experience, must have good reporting and documentation abilities, with the ability to “think outside of the box”, fluent computer knowledge and reporting abilities. Preferences for individuals with LOB and/or MOLO certifications.

Applications will be received until the position is filled. You will be contacted if you are successful candidate for interviews.
